V^oULT

“The Greatest Vault Ever Made
Wasn’t Buried In The Earth
But Made For Your Hand.”

Joseph Lipton, CEO, Secured Worldwide

The World's First Portable Vault.

Compact. Secure. Remarkable.

v°ULT is a world-changing innovation designed for trading diamonds, gifting diamonds, preserving wealth and creating liquidity.

A new and accessible asset, the portable security of v°ULT is both practical and intelligent.

Hold A Diamond Like Never Before.

v°ULT.

Portable.

Technology-secured.

Unassailable.

Insurable.

Tradable.

Transparent.

A radical, new setting.

A world first.

v°ULT holds GIA-graded diamonds
in a lightweight case
embedded with multiple security features.
The system cannot be compromised and
enables easy authentication and identification.

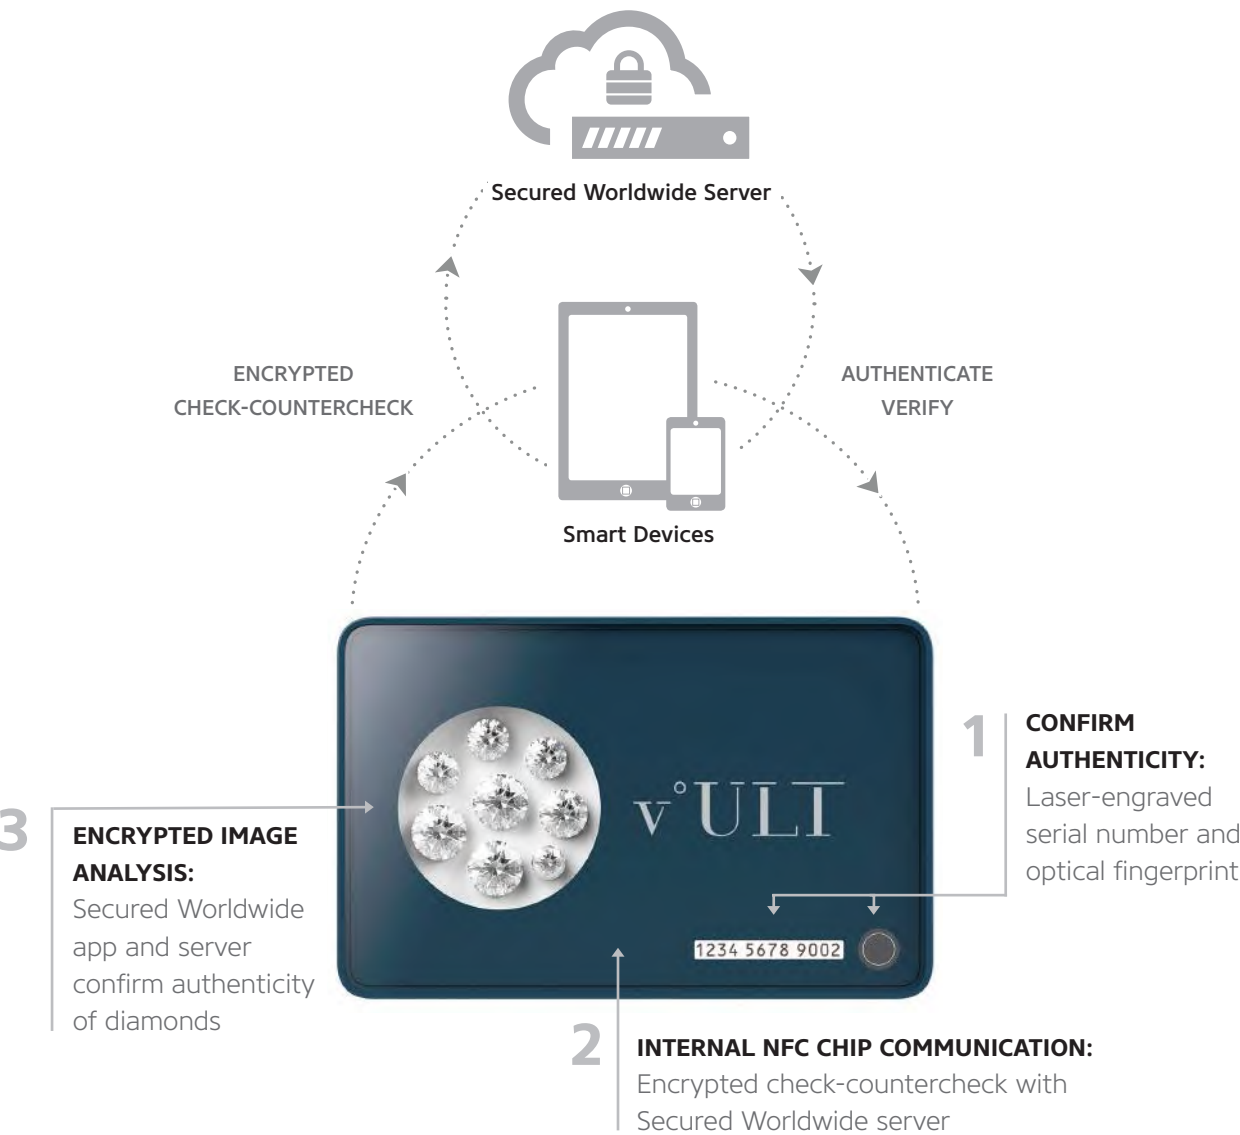

Levels Of Security Normally Found Behind 25-Ton Doors.

No bigger than the palm of your hand, v°ULT is constructed from a sintered zirconia case and a single crystal sapphire cover.

33 Left. 17 Right. 18 Left. Stop.
One full rotation counterclockwise.
Turn the handle 180 degrees.

MULTI-FACTOR **AUTHENTICATION**

Beauty In The Eye Of The Encryptionologist.

From A Security Standpoint,
It Is Altogether Genius.

With an internal security system that's unassailable, the diamonds inside v°ULT are impossible to alter.

IDENTIFICATION: Six proprietary layers of security.

The invisible GIA certificate number is laser engraved on every diamond, the innermost layer of security.

The visible OCR laser serial number is the outermost layer.

In between are four more layers of the most advanced technologies for identification and communication — including an RFID smart device and a wireless encrypted authentication chip.

AUTHENTICATION: Three modes of authentication using any Android or iOS smartphone or tablet.

A small optical fingerprint and serial number on the face of v°ULT are recognized using the Secured Worldwide app.

An internal NFC chip conducts a check-countercheck process of encrypted authentication with the Secured Worldwide server.

An advanced invisible fingerprint verifies the authenticity of every diamond against the Secured Worldwide database.

Extraordinary Is Our Starting Point.

$v^{\circ}ULT$ holds only GIA-graded diamonds. Each diamond weighing between 0.5 to 2.2 carats is guaranteed to be in the D to G color grade and is identifiable by the laser-engraved GIA certificate number.

All diamonds are in the flawless to very slightly included clarity range, and cut quality is graded very good to excellent in proportion, symmetry and polish.

A Portfolio Asset Allocation

Overall, A Brilliant Investment.

Diamonds are one of the smallest, lightest and most concentrated forms of wealth in the world. As a pure investment, diamonds provide security during both inflationary and deflationary times.

The Future. Diamonds.

Whether owned for wealth preservation or as a liquid asset, v°ULT is an intelligent way to add diversification to a portfolio as the value of a diamond — historically speaking — is forever.
